

Pharmaceutical Care Program On-Line Adjudication Process

Participation in this program may vary by group.

Formulary Interchange

NDC Number: 99999-9999-32

Reimbursement: \$4

This code should be used when a prescription for a medication not on the Dean Health Plan Formulary is switched to a formulary medication. **Claims should not be submitted if the prescriber authorizes a medical exception or obtains a prior authorization.**

Submit quantity of 1.

Therapeutic Interchange

NDC Number: 99999-9999-33

Reimbursement: \$12

This code should be used when making a change in a patient's prescription order to a more cost-effective option. This requires notification of the prescriber and a change in prescription order. Examples of this would include: Changing to a B-rated generic product or switching to a half-tablet prescription. **Changing from a brand name product to an A-rated generic is not reimbursable.**

Submit quantity of 1.

Change of Dose

NDC Number: 99999-9999-34

Reimbursement: \$5

This code should be used where the prescribed dose is either higher or lower than the recommended dose, or the duration is either insufficient or excessive. This requires the prescription to be changed by the prescriber. **Claims should not be submitted if the prescriber omits essential information such as the strength of medication.**

Submit quantity of 1.

Patient Compliance Monitoring

NDC Number: 99999-9999-35

Reimbursement: \$10

This code should be used when the pharmacist educates the patient about the importance of taking medication regularly and notifies the prescriber that the patient is less than 70% compliant over the past 3 months.

Submit quantity of 1.
